Volume 55, Number 1 January-February, 1986

	Engl.	Russ.
Galactose Transport by Certain Extreme Halophils – L. O. Severina, N. V. Pimenov, and V. K. Plakunov	1	5
Assimilation of Elemental Sulfur by Propionibacterium shermanii – I. A. Charakhch'yan and L. I. Vorob'eva	6	11
Protein Methylation and Calcium Ion Transport during Photophobic Reaction of the Blue-Green Alga Phormidium uncinatum – B. L. Gabai, N. Zh. Omirbekova, S. I. Bibikov, and A. N. Glagolev	9	15
Ammonium Assimilation by the Green Sulfur Bacterium Chlorobium limicola Forma thiosulfatophilum – R. N. Ivanovskii and E. A. Fedorova	14	21
Carbon Dioxide Assimilation by Mesophilic Purple Bacteria at High Temperature – O. V. Bakura and V. G. Zhukov	19	27
Regulation of Biosynthesis of Cellulotypic Enzymes and Enzymes Catalyzing Initial Catabolism of Glucose and Cellobiose in Clostridium thermocellum – N. P. Golovchenko, N. A. Chuvil'skaya, and V. K. Akimenko	23	31
Influence of the Conditions of Culturing on Alkaloid Biosynthesis by Penicillium kapuscinskii – A. G. Kozlovskii and T. F. Solov'eva	26	34
Effect of Exogenous Lipids in Complex Media on Composition of Fatty Acids in Mycelial Microorganisms – I. V. Konova, L. M. Rudakova, O. I. Pan'kina, E. A. Markvicheva, and Yu. E. Bartoshevich	33	41
Characteristics of the Regulation of Cellulase Biosynthesis in Myceliophthora thermophila – I. D. Svistova, G. B. Bravova, N. A. Zherebtsov, É. P. Guzhova, and L. G. Loginova	40	49
A Study of the Concentration of Membrane-Active Autoregulation Agents during Lithoautotrophic Growth of Pseudomonas carboxydoflava – V. A. Svetlichnii, A. K. Romanova, and G. I. El-Registan	46	55
A Comparative Investigation of the Lipid Composition of the Conidia and Mycelium of Fungi Belonging to the Genus Penicillium – E. P. Feofilova, E. A. Shirokova, L. S. Kuznetsova, and E. V. Odintsova	51	60
Carbohydate Composition of Preparations of Fungal Origin Obtained during Submerged and Superficial Culturing – I. V. Stakheev, A. M. Kostina, V. G. Babitskaya, and V. V. Shcherba	57	66
A Nutrient Medium for the Carboxydobacterium, Seliberia carboxydohydrogena – T. G. Volova and I. V. Gribovskaya	62	72
Glutamate Synthesis Control in Vibrio harveyi – V. B. Gurevich, A. V. Svetlakov, L. Yu. Popova, and A. N. Shenderov	66	77
Some Biological Properties of α-Mannanase of Rhodococcus erythropolis – É. A. Kovalenko and I. N. Pavlova	69	81
A Streptomyces spheroides Mutant Derepressed with Respect to Exoprotease Biosynthesis – M. A. Al-Nuri, N. I. Pryanishnikova, M. Dzh. Antisar, and N. S. Egorov	73	86
Certain Biochemical and Physiological Properties of a New Methane-Forming Bacterium, Methanococcus halophilus – Yu. Yu. Berestovskaya and M. A. Pusheva	76	90
Numerical Taxonomy of Pseudomonads of the diminuta Group – G. V. Pavlenko, I. V. Belikova, and A. B. Pavlenko	82	96
Selection of Escherichia coli and Pseudomonas putida Cultures with Increased Resistance to Immobilization in Polyarylamide Gel – N. G. Starostina, K. A. Lusta, and B. A. Fikhte	85	100

Thermophilic Bacteria Associated with the Sulfur Cycle from Sites of Corrosion of Steel Constructions in the Municipal Heating System and from Soil – R. S. Golovacheva, E. P. Rozanova, and G. I. Karavaiko. 89 105
Systematic Position of Microorganisms Isolated from the Stratosphere and Mesosphere – A. A. Imshenetskii, S. V. Lysenko, T. Yu. Petrukhina, and T. P. Sizova 96 113
Lipid Inclusions in Cells and Changes in Them during Dehydration and Reactivation of Yeasts – É. Yu. Ventynya, L. A. Saulite, A. I. Rapoport, and M. E. Beker. 99 116
Effect of Cyclic pH and pO_2 Variation on Morphology of Candida utilis Chemostat Culture – S. A. Lirova, D. P. Sokolov, A. A. Senyushkin, N. D. Berestennikova, and I. L. Rabotnova 104 120
Comparative Study of Certain Physicochemical and Biological Properties of Phages of Bacillus thuringiensis – Z. M. Kochkina 110 127
Rate of Respiration of the Bacterioplankton as a Factor in Self-Purification of Danube Water – I. Kh. Bashmakova 113 131
Occurrence of Microorganisms that Lyse Pseudomonas aeruginosa in Water Bodies and in Soil – V. A. Lambina and A. V. Selyavko. 117 135
Dynamics of Abundance of Virulent and Avirulent Strains of Rhizobium japonicum in the Rhizoplane and Rhizosphere of Soybean Plants – G. A. Lisichkina, L. A. Kozehvin, and D. G. Zvyagintsev. 120 138
Isolation and Investigation of Rhizobium leguminosarum Strains Effective on Peas of Afghan Origin – S. A. Chetkova and I. A. Tikhonovich. 124 143
Use of Mineral Sorbents for the Concentration of Lactobacterium pentoaceticum Cells – A. S. Gordienko and L. I. Globa. 129 148
A Bioluminescence Technique for Evaluating the Toxicity of Colored Substances in Wastewater of the Sulfate Cellulose Industry – L. N. Novikova, T. A. Gil', A. R. Rudykh, and D. I. Stom 132 152

Volume 55, Number 2 March-April, 1986

Regulation of the Formaldehyde Level in the Methylotrophic Yeast Candida boidinii – V. M. Ubiivovk and Yu. A. Trotsenko 137 181
Nature of the Energy Coupling of Phenylalanine Transport into Halobacterium salinarium cells – L. B. Lobyreva and V. K. Plakunov 141 186
Biosynthesis of the Polyene Antibiotic Levorin and the Composition of Streptomyces levoris Membranes – M. L. Novikova and T. P. Efimova 147 192
Nature of Stimulating Compounds Produced by Candida tropicalis – E. P. Yakovleva, L. E. Alekseeva, O. S. Kuznetsova, A. I. Korshunov, and V. I. Sukharevich 152 198
Effect of Pancreatic DNase on the Growth of Bacillus subtilis as a Function of the Physiological Condition of the Culture – F. G. Kupriyanova, S. Yu. Egorov, L. Ya. Makhmutova, and A. A. Kolpakov 157 205
Role of Arsenites in Lipid Peroxidation in Pseudomonas putida Cells Oxidizing Arsenite – S. A. Abdrashitova, G. G. Abdullina, and A. N. Ilyaletdinov 164 212
Fibrinolytic Activity of Some Bacillus mesentericus Strains – A. A. Imshenetskii I. D. Kasatkina, G. V. Cherkesova, and I. M. Lebedeva 168 217
Effect of Sodium Chloride on the Biomass Growth and the Activity of Carboxylation Enzymes in Spirulina platensis – I. V. Terekhova, I. I. Chernyad'ev, A. A. Mikhailov, and N. G. Doman 173 223
Comparison of the Lipid Composition of R-, S-, and M-Variants of Rhodococcus rubropertinctus – N. S. Egorov, T. V. Koronelli, E. S. Mil'ko, R. A. Stepanova, B. V. Rozynov, and M. G. Pletenko 176 227
Characteristics of Plasmid pBS271 Controlling ε-Caprolactam Degradation by Pseudomonas Strains – A. M. Boronin, V. G. Grishchenkov, L. A. Kulakov, and R. P. Naumova 180 231
A Strain of Acinetobacter calcoaceticus which Utilizes a Wide Range of Aromatic Compounds and which Carries a Resorcin Degradation Plasmid – A. L. Barkovskii and G. M. Shub 185 237
Terephthalate Carbolism in Mycobacterium lacticolum – R. P. Naumova, L. P. Usmanova, S. K. Zaripova, and E. N. Ofitserov 188 241

Morphological and Physiological Characteristics of Oligotrophic Growth of the Prosthecobacterium Prosthecomicrobium hirschii in Batch and Continuous Culturing – A. M. Semenov and L. V. Vasil'eva 194 248
Morphological and Physiological Changes during the Cell Cycle of a Synchronous Batch Culture of Candida utilis on a Medium with Ethanol – I. L. Rabotnova, I. N. Pozmogova, E. M. Shul'govskaya, N. D. Berestennikova, and E. A. Andreeva 199 253
Effect of the Value of Carbon Source Pulse Addition on the Response Periodicity and Growth of Candida utilis during Continuous Cultivation – L. A. Litvinenko, S. B. Petrikevich, M. É. Kintana, and E. I. Popov 204 259
Germination of Spores of Bacillus thuringiensis After Extraction of Proteins – V. V. Shevtsov, L. N. Karabanov, S. P. Sokolov and A. I. Pakhtuev 208 264
Influence of Metal Cations on Electrokinetic Properties of Yeasts and Their Interaction with Clay Minerals – N. M. Ageeva, A. A. Merzhanian, É. M. Sobolev, A. S. Gordienko, and L. I. Globa 212 268
Survival of Obligate Methanotrophous Bacteria Following Lyophilization and Subsequent Storage – A. I. Nesterov, A. V. Koshelev, V. F. Gal'chenko, and M. V. Ivanov 215 271
Effect of Osmotic Shock on Viability, Optical Density, and Permeability of Heated Escherichia coli Cells – I. I. Morozov, I. P. Dergacheva, and N. S. Ansimova 221 278
Methane Production from Methanol by Bacterial Associations – S. A. Ilarionov and E. A. Bonch-Osmolovskaya 224 282
Oxidation of Hydroxylamine by Heterotrophic Bacteria – D. Yu. Sorokin and G. A. Dubinina 230 289
Nonspecific Effect of Nitrification Inhibitors on Soil Microorganisms – Kh. Sh. Namir, V. S. Guzev, and D. G. Zvyagintsev 236 295
Taxonomic Position of Nitrogen-Fixing Spirilla – A. E. Khal'chitskii, and T. P. Turova 240 301
Coordination of Taxa of Gram-Negative Bacteria Established by Numerical Analysis Methods – V. A. Romanovskaya, Yu. S. Sadovnikov, Yu. R. Malashenko, and Mohamed El Said 244 305
A New Species of Agarlytic Soil Bacteria of the Genus Flavobacterium – S. P. Gudz', S. G. Matviiko, and M. F. Dumych 248 311
Streptomyces cyperinus sp. nov.: A New Actinomycete Species – V. D. Kuznetsov, S. N. Filippova, I. V. Yangulova, G. S. Suchkova B. V. Rozynov, and L. S. Tirranen 252 316
Fine Structure of Mycoplana bullata and Mycoplana dimorpha Cells – T. F. Kuimova 259 324
Ability of Certain Yeasts and Basidiomycetes to Produce Extracellular RNA Depolymerases – E. S. Vasileva-Tonkova and E. V. Letunova 262 328

Volume 55, Number 3 May-June, 1986

Succinate Dehydrogenase Activity of Escherichia coli Cells after Thermal Stress and in the Process of Repair – S. M. Zhdan-Pushkina, N. B. Verbitskaya, and L. D. Kondrat'eva 267 357
Glucose and Galactose Utilization by Extreme Halophiles during Their Growth and Pigment Production – N. V. Pimenov, L. O. Severina, and V. K. Plakunov 271 362
Pyruvate Oxime Oxidation by Heterotrophic Bacteria – D. Yu. Sorokin 276 368
Preservation of the Main Physiological Properties of Lactobacillus plantarum during Storage on Different Growth Media – A. V. Platonov, É. K. Karasevich, and E. I. Smirnova 280 373
Levels of Assimilation of Carbon Dioxide by Methanotrophic Bacteria – V. N. Shishkina and Yu. A. Trotsenko 283 377
Chemotaxis of Gluconobacter oxydans – G. V. Pavlenko, T. L. Kukovkina, N. L. Muzychenko, and B. V. Gromov 288 383
Features of Mutagenesis and Repair after UV Irradiation in the Methylotrophic Bacterium Pseudomonas methanolica – G. N. Naumov, I. K. Bokhan, and I. G. Mulmykh 291 386
Selective Method of Isolating Mutants Sensitive to Ultraviolet Irradiation from Culture of Rhodopseudomonas sphaeroides – N. E. Rodina and S. V. Kameneva 295 391
Dynamics of the Growth of Arthrobacter globiformis in Batch and Continuous Cultivation – R. I. Aminov, V. M. Anan'in, and E. L. Golovlev 299 395

A Study of the Ability of Fungi from the Genus Trichoderma to Produce Extracellular RNA-Depolymerases – E. S. Vasileva-Tonkova and S. I. Bezborodova 304 401
Procedures for the Mixed Cultivation of Hydrolytic Enzyme Producer Organisms – A. V. Gavristov, E. A. Zhitskaya, and A. B. Churakova 309 407
Change in the Size of Corynebacterium glutamicum Cells during Growth in a Medium Containing Acetic Acid – O. V. Salamakha, L. A. Tikhomirova, N. P. Rogatykh, and T. N. Zubarev 315 413
Effect of Nitrogen Starvation on the Photosynthesizing Apparatus of an Anabaena variabilis Mutant Defective for the System of Nitrogen Fixation – A. V. Pinevich ... 319 418
Growth of Chloroflexus aurantiacus on Media with Different Organic Compounds and Pathways of Their Metabolism – E. N. Krasil'nikova, O. I. Keppen, V. M. Gorlenko, and E. N. Kondrat'eva 325 425
Ploidy Determination in Rhizopus pygmaeus Mutants and Their Glucoamylase Biosynthesis at Different Temperatures – V. S. Grigorov, N. A. Zherebtsov, and V. V. Shchegolev 330 431
Formation of Roquefortin and Products of Its Metabolism by a Culture of Penicillium farinosum – T. A. Reshetilova, O. V. Kuleshova, and A. G. Kozlovskii .. 333 435
Influence of Mineral Salts on the Level of Exotoxin Production and Productivity of a Culture of Bacillus thuringiensis – L. I. Abrosimova, P. V. Babaeva, G. M. Zubareva, and V. V. Shevtsov 337 440
Biosynthesis of Fibrinolytic Enzymes by Marine Bacteria – N. S. Egorov, N. S. Landau, M. N. Lebedeva, and L. G. Gutveib 342 445
Biosynthesis of Extracellular Enzymes by Bacillus intermedius – L. V. Znamenskaya, E. R. Romakhina, S. V. Filatova, N. P. Balaban, and I. B. Leshchinskaya 345 449
Cyclic Adenosine-3',5'-monophosphoric Acid in Streptomyces antibioticus and Its Possible Role in the Regulation of Oleandomycin Biosynthesis and Culture Growth – E. B. Lishnevskaya, Z. A. Kuzina, N. K. Asinovskaya, I. I. Belousova, M. A. Malkov, and A. Ya. Rovinskaya 350 455
Intracellular Polysaccharide of Clostridium thermocellum – N. P. Golovchenko, N. A. Chuvil'skaya, and V. K. Akimenko 356 461
Ultrastructure of Invaginations and Particle Density in the Plasmalemma of Lipolytically Active and Dormant Saccharomycopsis lipolytica Cells – E. N. Ratner, V. V. Dmitriev, I. S. Zvyagintseva, and B. A. Fikhte 360 465
Role of Cell Wall Components in the Morphology of Candida Cells – A. P. Belov, and A. S. Kamenev 366 473
Properties of a New Species, Bacillus mucilaginosus – Z. A. Avakyan, T. A. Pivovarova, and G. I. Karavaiko 369 477
Taxonomic Characteristics of Yeast Strains Phenotypically Related to Torulopsis candida and Candida guilliermondii – V. M. Blagodatskaya 374 483
Loss of Trait of Species Monospecificity by Exoparasitic Bacteria of the Genus Micavibrio – A. V. Afinogenova, S. M. Konovalova, and V. A. Lambina 377 487
Microbiological Methane Formation in Deposits of the Bering Sea – S. N. Gorlatov, V. F. Gal'chenko, and V. G. Tokarev 380 490
Isolation of Clostridium thermocellum from Hot Springs in Buryatiya – G. I. Khraptsova, N. A. Kostrikina, V. I. Biryuzova, and L. G. Loginova 385 495
A Microbiological Examination of Hyperhaline Lakes of the Sol'-Iletsk Salt Pot – É. G. Dobrynin 392 502
Luminescent Bacteria from the Intestines of Fishes Inhabiting the Indian Ocean – I. I. Gitel'zon and T. I. Vorob'eva 396 507
Incidence of Saccharomyces Yeasts of the Killer Phenotype in Various Wine-Growing Regions and the Thermostability of the Killer Factor – L. V. Tyurina, N. I. Bur'yan, T. K. Skorikova, and S. S. Pokrovskaya 400 511
Effect of Invertebrates on Growth of Soil Bacteria – A. Yu. Gorbenko, N. S. Panikov, and D. G. Zvyagintsev 403 515

Volume 55, Number 4 July-August, 1986

Regulatory Action of Vitamin B_{12} on the Ribonucleotide Reductase System of Propionic Acid Bacteria - E. P. Iordan, N. I. Petukhova, and L. I. Vorob'eva..... 409 533

Oxidative Phosphorylation Activity in the Membranes of Methylotrophic Bacteria - E. V. Chetina and Yu. A. Trotsenko..... 414 539
ATP Sulfurylase Activity in Chloroflexus aurantiacus and Other Photosynthesizing Bacteria as a Function of the Temperature - E. N. Krasil'nikova..... 418 543
Some Principles of the Energetics of Amino Acid Transport in Extremely Halophilic Bacteria - N. I. Matveeva, Yu. A. Nikolaev, N. A. Voronina, and V. K. Plakunov..... 422 548
Azide-Sensitive Respiration of Candida valida Cells - S. S. Eremina..... 428 555
Activity of Thiamine-Dependent Enzymes in Candida lipolytica Yeasts during Growth on Glucose in Conditions of an Excess and Deficit of Thiamine - I. A. Kataeva, I. T. Ermakova, and T. V. Finogenova..... 431 559
Dependence of the Nitrogenase and Nitrate Reductase Activities on the Molybdenum Concentration in the Medium and Assimilation of Nitrate in Cells of Rhodopseudomonas capsulata - A. F. Yakunin, A. A. Tsygankov, I. N. Gogotov, and N. P. L'vov..... 435 564
Influence of Amino Acids and Vitamins on the Development of the Thermophilic Bacteria Bacillus stearothermophilus and Thermus ruber Isolated on a Medium Containing Paraffin - T. I. Bogdanova and L. G. Loginova..... 440 570
Composition of Lipids of the Subcellular Structures of Yeasts Grown under Conditions of Intensive Lipogenesis - E. G. Davidova, A. P. Belov, L. D. Balashova, and S. A. Zaitsev..... 444 575
Role of Lipids in the Oxidation of Arsenites by a Culture of Pseudomonas putida - S. A. Abdrashitova, G. G. Abdullina, and A. N. Ilyaletdinov..... 451 582
A New Pathway of Bacterial Catabolism of 3-Hydroxybenzoic Acid - I. I. Starovoitov, S. A. Selifonov, M. Yu. Nefedova, and V. M. Adanin..... 454 586
Metabolism of Chlorinated Anilines by Pseudomonas diminuta - E. G. Surovtseva, V. S. Ivoilov, and Yu. N. Karasevich..... 459 591
Microbiological Hydroxylation of Quinoline and Its Derivatives - A. G. Shevchenko, A. A. Turovskii, Z. A. Okhrimenko, and V. G. Kaloerova..... 463 596
Effect of Surface-Active Agents on the Electric Characteristics of Bacterial Cells - V. M. Fomchenkov, A. Yu. Ivanov, A. K. Azhermachev, V. A. Chugunov, and A. I. Miroshnikov..... 468 601
Resistance of Candida guilliermondii Yeasts to Polyene Antibiotics - E. N. Durasova, N. P. Mikhailova, K. A. V'yunov, V. M. Bakulev, V. N. Sokolov, M. O. Makhrosenkova, and N. N. Khromov-Borisov..... 474 607
Effect of Zineb on Microorganisms - E. E. Emnova, G. V. Merenyuk, V. I. Biryuzova, V. A. Kodryan, and L. G. Tsurkan..... 479 612
Effect of Unsaturated Halogenated Hydrocarbons on Permeability of Some Fungal Cell Membranes - L. M. Kalatskaya and A. A. Malama..... 486 618
Spontaneous and UV-Induced Variability of Amylolytic activity in Pullularia (Aureobasidium) pullulans Strains of Different Ploidy - A. A. Imshenetskii, T. F. Kondrat'eva, and N. A. Lobacheva..... 489 622
S-6L: A New Cyanophage with DNA of Unusual Base Composition - A. V. Matveev and I. Ya. Khudyakov..... 492 626
Growth of Methanosarcina vacuolata in a Continuous Culture - V. V. Kevbrin..... 497 633
Material Balance of the Growth of Thermoacidophilic Microorganisms - V. N. Ivanov and E. A. Tsimberg..... 500 637
Optimization of the Medium and Significance of Certain Components in the Medium for the Biosynthesis of an Exopolysaccharide by Mycobacterium cyaneum - E. V. Semenova, V. N. Maksimov, M. V. Volokitina, and N. S. Egorov..... 505 643
Infrared Spectrophotometric Study of Budding Bacteria of the Genus Hyphomicrobium during Long-Term Growth on Poor Media - D. I. Nikitin, I. A. Pitryuk, E. D. Zagreba, M. K. Ginovska, Yu. O. Yakobson, and M. B. Fetisova..... 509 648
Spectral Characteristics of Anabiotic Cystlike Forms of Bacillus cereus - Yu. N. Korolev, G. I. Él'-Registan, A. N. Kozlova, and V. I. Duda.... 513 652

Polysaccharides from Different Strains of the Nodule Bacteria Rhizobium leguminosarum - I. Ya. Zakharova, L. V. Kosenko, T. M. Kovalevskaya, O. A. Berestetskii, and A. T. Novikova..... 516 656
Taxonomic Importance of Methods of Reproduction and Types of Separation of Dividing Cells in Species of the Genus Arthrobacter - E. I. Kvasnikov, E. N. Pisarchuk, L. L. Ivanova, K. P. Gushcha, and V. I. Andrienko..... 521 662
Microbial Oxidation of Methane in Bering Sea Sediments - V. F. Gal'chenko, S. N. Gorlatov, and V. G. Tokarev..... 526 669
Microbiological Methane Production in Stratal Waters of Oilfields in the Perm Area of the Cis-Ural Region - L. M. Rubinshtein and A. A. Oborin.. 530 674
Respiration Rate of the Bacterioplankton in the Sea of Azov - L. I. Tolokonnikova..... 535 679
Rhodococci as a Natural Sorbent of Hydrocarbons - T. V. Koronelli, S. G. Dermicheva, and M. N. Semenenko..... 539 683
Influence of the Dehydration Process on Endomycopsis fibuligera Yeasts - A. I. Rapoport, M. A. Dreimane, and M. E. Beker..... 542 687
Sorption of Microorganisms by Fibrous Materials - G. N. Nikovskaya, A. S. Gordienko, and L. I. Globa..... 545 691
Effect of the Method Used for Cell Disruption on the Activity of Carboxylation Enzymes from Spirulina platensis - I. V. Terekhova, I. I. Chernyad'ev, and N. G. Doman..... 549 695

Volume 55, Number 5 September-October, 1986

Reduction of Manganese Dioxide by Cell-Free Acinetobacter calcoaceticus Extracts - G. I. Karavaiko, V. A. Yurchenko, V. I. Remizov, and T. M. Klyushnikova..... 553 709
Coupling of the Process of Electron Transport to Methane Monooxygenase with the Translocation of Protons in Methane-Oxidizing Bacteria - I. G. Sokolov..... 559 715
Peculiarities of the Energy Coupling in Succinate Transport by Membrane Proteins of Extremely Halophilic Archebacteria - I. S. Zvyagintseva, A. L. Tarasov, and V. K. Plakunov..... 566 723
Respiratory Activity of the Cells and Cell-Free Extracts of the Hydrogen Bacterium Alcaligenes eutrophus - Ya. V. Fedorova..... 570 728
Metabolic Conversions of Exogenous Labeled Fatty Acids by Cultures of the Fungal Family Entomophthoraceae - N. I. Popova, M. N. Bekhtereva , and E. G. Davidova..... 574 732
Influence of Temperature Exposures on Lipid Composition of Cunninghamella japonica - E. P. Feofilova, L. S. Kuznetsova, É. G. Rozantsev, and E. A. Shirokova..... 578 737
Influence of the pH of the Medium on the Growth and Physiology of Hydrogen Oxidizing Bacteria - T. G. Volova, G. M. Tereshkova, G. S. Kalacheva, and M. V. Sal'nikov..... 585 745
Peroxidase of Propionic Acid Bacteria - L. I. Vorob'eva, S. Al'-Sudani, and N. I. Kraeva..... 590 750
Changes in the Electrical Characteristics of Bacterial Cells Following Disturbance of the Barrier Function of the Cytoplasmic Membrane - V. M. Fomchenkov, A. L. Mazanov, V. A. Chugunov, L. K. Chaikina, and A. K. Azhermachev..... 593 754
Derivation of Hybrid Forms of Hansenula and Pichia Yeasts by Protoplast Fusion - M. A. Abramova and Yu. G. Kapul'tsevich..... 599 760
Pedogamic Conjugation in the Yeast Nadsonia commutata - S. A. Semenova and V. I. Golubev..... 604 765
Balance of Energy-Rich Compounds in Growth of Thiobacillus ferrooxidans - V. N. Ivanov..... 609 768
Maximum Yield of Biomass of Methanol-Assimilating Yeasts - L. N. Drozdov-Tikhomirov and N. T. Rakhimova..... 615 775
Mechanism of Growth Limitation of a Recombinant Strain of Escherichia coli - E. L. Golovlev, Yu. G. Ivanitskaya, and V. B. Keshelava..... 621 781
Leaching of Glass Sand during Microbiological Oxidation of Oil - E. P. Rozanova, N. P. Belkanova, E. S. Kulik, and A. A. Mats..... 627 787

Biosynthesis of the Antibiotic Gramicidin S by a Culture of Bacillus brevis as a Function of Changes in the Growth Kinetics - V. P. Lykov, I. V. Bodnar, M. P. Khovrychev, and A. N. Polin..... 632 792
Secretion of Acid Phosphatase during Growth of the Yeast Saccharomyces cerevisiae on Different Sources of Carbon and Nitrogen Nutrition - I. N. Semenova, S. N. Egorov, and N. S. Egorov..... 636 796
Regulation of the Synthesis of Exopolysaccharide in Methylococcus thermophilus by External Factors - T. A. Grinberg, Z. P. Shchurova, V. A. Romanovskaya, and Yu. R. Malashenko..... 640 800
Biological Activity of a Polar Lipid from Spores of Clostridium butyricum - G. P. Gaenko, V. I. Duda, T. V. Koronelli, and I. K. Pakhlavuni..... 644 804
Immunological Characterization of Membranes of Methylomonas methanica - L. V. Bezrukova and E. V. Chetina..... 647 808
Intracellular Development of Bdellovibrio bacteriovorus - S. N. Konovalova and V. A. Lambina..... 654 816
Ultrastructure of Cells in Cyanobacteria of the Genus Cyanothece - B. V. Gromov, O. V. Gavrilova, and E. S. Konovalov..... 658 821
Ultrastructural and Biochemical Changes in the Cells of Mycobacterium rubrum and Streptomyces bacillaris under the Action of the Herbicide Semerone - M. N. Poglazova, E. E. Emnova, V. A. Kodryan, N. A. Kostrikina, T. P. Svetlichnaya, and V. I. Biryuzova..... 662 825
A New Species of Bacteria of the Genus Kurthia, Kurthia sibirica Sp. Nov. - V. A. Belikova, N. V. Cherevach, and I. V. Kalakutskii..... 668 831
Influence of Simazine on a Population of Soil Streptomycetes - G. M. Zenova, G. F. Lebedeva, E. Yu. Klyuchnikova, and D. G. Zvyagintsev..... 672 836
Activity of Bacterial Processes in Bottom Sediments of the Southern Part of Lake Baikal - A. I. Shtevneva and N. D. Sudakova..... 675 839
Total Numbers of Microorganisms in Recent Bottom Sediments of the Black Sea - B. B. Namsaraev, M. Lukhioio, G. I. Gogotova, and M. B. Vainshtein... 682 846
Free Water Distribution in the Cytoplasm of Cryptococcus laurentii Cryotolerant Cells - E. N. Ratner, S. P. Kamkova, L. D. Loseva, and B. A. Fikhte..... 686 851
Ribonucleic Acid Degradation during Dehydration of Yeast Cells - A. I. Rapoport and M. E. Beker..... 689 855
Immobilization of Microorganisms on a Latex in Order to Obtain an Artificial Floc - R. M. Alieva, A. B. Manasbaeva, and A. N. Ilyaletdinov..... 692 858
Incorporation of Saccharomyces cerevisiae Cells with 17β-Hydroxysteroid Dehydrogenase Activity into Polyacrylamide Gel - M. V. Turkina, A. Yu. Arinbasarova, and K. A. Koshcheenko..... 699 866
Coagulation of Bacteria in the Presence of Montmorillonite - G. N. Nikovskaya, S. V. Garbara, and L. I. Globa..... 705 872
Method of Determining CO_2 Evolved by Resting Cells of Microorganisms during Oxidation of Hydrocarbons - N. M. Ismailov..... 708 875

Volume 55, Number 6 November-December, 1986

Assimilation of Exogenous Labeled Fatty Acids by Fungal Cultures of the Family Entomophthoraceae - N. I. Popova, M. N. Bekhtereva, and E. G. Davidova..... 713 901
Interrelationship between Glutamic Transport and Resistance of *Escherichia coli* to Tetracyclines - V. K. Plakunov, Zh. D. Lebedeva, and I. M. Volkova..... 717 905
Induction of Biosynthesis of Cellulases by the Nongrowing Mycelium of *Aspergillus terreus* - I. I. Ivanova..... 722 910
Regulation of Terephthalate Catabolism in *Rhodococcus rubropertinctus* - R. P. Naumova, S. K. Zaripova, and L. P. Usmanova..... 729 918
Synthesis of Lipids by Fungus *Entomophthora dipterigena* during Growth on Media with Ethyl Alcohol - V. P. Zhelifonova, T. N. Kuvichkina, I. B. Romanova, and V. K. Eroshin..... 735 924
Respiration in Oligotrophic Prosthecobacteria - A. M. Semenov..... 739 929
Utilization of a Mixture of Hydrogen and Ethylene by the Oligotrophic Bacterium *Renobacter vacuolatum* - O. I. Slabova and D. I. Nikimin..... 744 934

Effect of Gas-Nutrition Conditions on the Growth and Metabolism of *Seliberia carboxydohydrogena* - T. G. Volova, G. S. Kalacheva, G. E. Kasaeva, and G. M. Tereshkova..... 748 938
Effects of Low-Intensity Red Light on the Enzymatic Activity of a Yeast Culture *Torulopsis sphaerica* - G. E. Fedoseeva, T. I. Karu, T. S. Lyapunova, N. A. Pomoshchnikova, M. N. Meisel', and A. V. Peskin..... 753 944
Death of Bacteria and Fate of *Escherichia coli* DNA during Amino Acid Starvation - A. I. Rybkin and V. K. Ravin..... 758 949
Separation of Carbon Isotopes by Heterotrophic Microorganisms Growing on n-Alkanes - A. M. Zyakun, V. A. Bondar', V. V. Bezruchko, and A. N. Shkidchenko..... 762 953
Influence of Copper and Molybdenum on Growth of the Yeast *Candida krusei* - Yu. G. Kapul'tsevich and S. N. Parshina..... 767 958
Reduction of Hexavalent Chromium by Collection Strains of Bacteria - P. I. Gvozdyak, N. F. Mogilevich, A. F. Ryl'skii, and N. I. Grishchenko..... 770 962
Influence of Gold Ions on *Thiobacillus ferrooxidans* - T. A. Pivovarova, E. D. Korobushkina, S. A. Krasheninnikova, A. E. Rubtsov, and G. I. Karavaiko..... 774 966
Spontaneous Variability of *Streptomyces albogriseolus* - V. D. Kuznetsov, M. S. Mosichev, and T. D. Chistova..... 780 973
Subsurface Solid-Phase Fermentation of Straw and Sawdust - G. K. Skryabin, L. A. Golovleva, Yu. V. Redikul'tsev, D. N. Chermenskii, E. L. Golovlev, and L. A. Litvinenko..... 783 976
Spore Formation and Biosynthesis of Protein Crystals during Continuous Culturing of *Bacillus thuringiensis* - M. P. Khovrychev, Z. V. Sakharova, Yu. N. Ignatenko, T. P. Blokhina, and I. L. Rabotnova..... 790 983
Study of the Cell Utrastructure of the Halophilic Archaebacterium *Methanococcus halophilus* - N. E. Cherni, V. I. Popenko, M. I. Moskvin-Tarkhanov, and T. N. Zhilina..... 796 989
Fine Structure of Some Species of the *Actinomadura* Genus - T. F. Kuimova and L. P. Terekhova..... 804 996
Ultrastructure and Properties of *Bacillus polymyxa* Spores - G. N. Ermakova, M. V. Nefelova, and N. S. Egorov..... 809 1000
Structural Features of *Bacillus thuringiensis* Phage DNA - Z. M. Kochkina.... 813 1005
Intracellular Development of *Escherichia coli* Bacteriophages after Keeping Phage-Infected Bacteria under Conditions of Anabiosis and Hypothermia - A. A. Tsutsaeva, I. P. Vysekantsev, and Yu. E. Mikulinskii..... 817 1009
Characteristics of Rod-Shaped Methane-Producing Bacteria from an Oil Pool and Description of *Methanobacterium ivanovii* sp. nov - S. S. Belyaev, A. Ya. Obraztsova, K. S. Laurinavichus, and L. V. Bezrukova..... 821 1014
Calcium Carbonate Crystals in the Surface Water Film and in Bacterial Cells from the Sierra Del Rosario (Cuba) Water Reservoir - V. I. Romanenko, M. Peres Eíris, and M. Avrora Pubienes..... 827 1021
Dynamics of the Numbers and Structure of Actinomycete Populations in Soil - E. I. Volkova, L. M. Polyakskaya, P. A. Kozhevin, and D. G. Zvyagintsev..... 832 1027
Freeze-Fracture Study of Changes in Vacuoles during Dehydration of *Saccharomyces cerevisiae* Cells - A. I. Rapoport, V. I. Biryuzova, and T. P. Svetlichnaya..... 835 1030
Rapid Evaluation of the Quality of Entomopathogenic Preparations from Culture of *Bacillus thuringiensis* using the Electrooptical Method - V. N. Brezgunov, N. V. Shvets, A. N. Alekseev, D. E. Svetogorov, A. N. Shchepkina, and L. N. Karabanova..... 840 1039
